

SABYASACHI UPADHYAY

AI Product Manager | GenAI Systems | Digital Platforms

sabyasachi.upadhyay4@gmail.com | (+91) 9741263004 | Bengaluru, India | [LinkedIn](#)

Professional Summary

AI Product Manager with 5+ years shipping production GenAI at national scale. Current Product Owner at Ola Foundation leading SAHELI Actiquity AI - a RAG-based clinical assistant deployed across 6 blocks in Tamil Nadu with 57% reduction in unnecessary referrals and 80% CSAT among frontline health workers. Combines ML engineering roots (former Ola Research Engineer shipping graph-based fraud detection to production) with national-scale product ownership at NITI Aayog (scaled the Women Entrepreneurship Platform to 30,000+ users; co-authored India's Digital Banking Regulatory Framework adopted in national policy discussions). Fluent in LLMs, RAG, agent systems, and modern AI tooling; solo-ships live AI products with eval-first discipline.

Experience

OLA FOUNDATION | PRODUCT OWNER

[January 2025 - Present]

- Launched SAHELI Actiquity AI, a GenAI clinical assistant built on Retrieval Augmented Generation (RAG) framework deployed across 6 blocks in Tamil Nadu, India improving frontline worker decision accuracy and reducing unnecessary referrals by 57% (video). Initial pilot revealed high hallucination rate in edge cases; redesigned prompt structure and added retrieval grounding, reducing error rate by 30%
- Defined model architecture decisions (LLM vs SLM trade-offs), prompt design, evaluation metrics, and guardrail mechanisms aligned to anemia clinical protocols
- Designed human-in-loop workflow enabling frontline workers to review AI recommendations before action
- Achieved 57% reduction in unnecessary referrals and 80% CSAT among health workers
- Built feedback loop framework to continuously refine model outputs based on field data
- Reduced screening time by 50% by redesigning data collection workflows by building Medic's open-source framework enabled Community Health Toolkit (CHT)
- Defined product roadmap across health, livelihood and education lifecycle for women-centric digital platform

NITI AAYOG | ASSOCIATE/RESEARCH OFFICER

[May 2020 - Dec 2024]

- Scaled Women Entrepreneurship Platform ([WEP](#)) to 30,000+ registered users, 400+ mentors, and 26+ institutional partners. Defined KPIs across engagement, partner activation, and retention
- Led Product Development for National Data Analytics Platform ([NDAP](#)), onboarding 3,000+ datasets across 25+ ministries. Designed metadata standardization framework improving discoverability and reducing data access friction
- Drove cross-ministry stakeholder alignment and data standardization initiatives
- Co-authored regulatory framework for Digital Banking in India adopted in policy discussions ([report](#))
- Managed AI-based Clinical Decision Support pilot across Aspirational Districts ([report](#))
- Supported the CEO Office and Frontier Technologies Vertical on **Web3 Research (Blockchain and Crypto)**

STUDY SABBATICAL - UPSC Civil Services Examination (CSE) Prelims-Qualified and Mentorship

[June 2017 - April 2020]

- Cleared Prelims twice and appeared for Mains; ranked in top 2% among 1M+ applicants
- Mentored aspirants on [Topmate](#); developed structured analytical and policy evaluation skills. The diverse nature of Civil Services Examination preparation has equipped me with a broad knowledge base, enabling me to engage confidently and effectively in discussions and work on a wide range of topics.

OLA | RESEARCH ENGINEER in Data Science

[October 2015 - February 2017]

- **Big Data and Machine Learning:** Independently implemented a **Fraud Detection Engine** for Ola Rides by leveraging clustering algorithms, including *Spectral Clustering* and *Clique Detection*, on driver-customer linkages within a graph. Utilized Igraph in R for exploratory analysis of cab rides and the GraphX library on Apache Spark

to identify dense bipartite connections and cliques, generating reports with **an 80% accuracy rate** validated with in-person interviews with drivers and customers

- The Fraud Detection Engine was subsequently deployed in production to profile drivers and customers, enabling real-time detection of fraudulent rides

QUIKR | ASSOCIATE SOFTWARE ENGINEER

[September 2014 - September 2015]

- Implemented Machine Learning based **Ad Filtering Classifier** using Bayesian Models on **Apache Mahout**; Developed a Speech-to-Text recognition system for recording audio ads on Quikr; Contributed to web development projects, demonstrating a high level of productivity and versatility

EMC | ASSOCIATE CONSULTANT

[August 2013 - August 2014]

- **Big Data Engineer:** Conducted *Customer Churn Analysis* on telecom data using Big Data algorithms such as MapReduce. Responsibilities included programming in **Hadoop** and conducting **Analytics** to deliver actionable insights and solutions for clients

SKILLS

Product & Leadership - Product Strategy, Product Roadmap, PRD Writing, Agile/Scrum, Stakeholder Management, User Research, Backlog Prioritization, Go-to-Market Strategy.

AI & Technical - LLMs, RAG, Agent Systems, Prompt Engineering, Evaluation Frameworks, Machine Learning, A/B Testing

Data & Tools - SQL, Python, Excel, JIRA, Whimsical

Product Skills & Tools ([portfolio](#))

GENAI 100x FELLOWSHIP

[July 2025 - Jan 2026]

NEXTLEAP PRODUCT MANAGER FELLOWSHIP

[November 2023 - February 2024]

Graduated as a [Top Fellow](#) from the Fellowship ([Capstone Project](#))

Education

Birla Institute of Technology and Science (BITS) Pilani, India

[2009-2013]

B.Tech. (Hons) Computer Science

Publications and Awards

- Winner of the OLA AI Productivity Hackathon
- Winner of the 100x AI Hackathon
- Strategy paper - **Digital Banks:** A Proposal for Licensing & Regulatory Regime for India - [link](#)
- Clinical Decision Support System - Health Pilot Study - [link](#)
- **Moving the Needle** - Creating an Enabling Environment for Women-led Enterprises - [link](#)
- **Economic Times Article** - Co-Author of Promoting Medical Tourism via Ayushman Bharat Digital Mission - [link](#)
- Semi-finalist at the BIG DATA TECH GRAND SLAM in INDIA BIG DATA WEEK 2014 organized by Unicom.
- Paper Presentation - A Map Reduce Based Parallel Algorithm for Large Scale Hierarchical Classification at International Conference in Information Sciences 2014
